# Le 9HOTEL CENTRAL Brussels

When visiting the European jewel box that is Brussels, the location and quality of your hotel is equally as important as what you do while you are there. Traveling for business or pleasure, the quality of accommodations in Brussels will ensure you spend an ample time relaxing in your room in addition to exploring what the city has to offer. At Le 9HOTEL CENTRAL we have found a perfect combination of action and relaxation, elegance and casual chic that makes this boutique hotel a go-to anytime we are in Brussels.

*By Kate Dannies*

Tucked into the heart of Brussels' cultural district, Le 9HOTEL CENTRAL is both in the centre of the action and a private oasis all its own. With just 47 spacious and cosy rooms, Le 9HOTEL CENTRAL is much more than a place to stay at night: it is a lovingly designed and serviced property that captures the refined elegance and edginess of one of Europe's hidden urban gems.

The true experience of Le 9 lies in the details: the elegant yet modern rooms are spacious and inviting, each one offering views of Brussels' spectacular old-world architecture. The lobby offers guests a music lounge along with a dining area that serves a delicious breakfast assortment of cheeses, meats, eggs and vegetables along with afternoon tea served daily. These touches make guests feel right at home—but in a better version of home where everything is just so.

Walls offering glimpses of exposed brick and wood give the guest rooms a minimalist industrial chic feel. Immaculate white comforters top the large, plush mattresses and flat screen TVs offer an array of international channels. Bathrooms have large showers and are stocked with paraben-free natural personal care products—we love this environmentally-friendly touch! The 9Suite comes complete with a king size bed, terrace, Bluetooth speakers and a mini-bar making it a perfect retreat from which to take in the city.

From its location in the Brussels museum district, Le 9HOTEL CENTRAL is within walking distance to the Place Royal, the Grand Place and cathedrals. Le 9 is also minutes away from the BELvue Museum, the Saint Hubert Royal Galleries, and the Saint Michael and Gudula Cathedral. Just around the corner from the nearest metro station, you are just a short ride away from experiencing all of what the greater city has to offer.

Aside from the sumptuous bedding and elegant décor, perhaps our favourite thing about Le 9HOTEL CENTRAL is that it is a stone's throw from some

of the sweetest dining in the city: what is a trip to Belgium without a little chocolate? Corne Port Royal chocolates are manufactured in accordance with the traditions of a group of 50 artisans faithful to selected recipes. Nehaus is named after the family that invented the praline and ballotin, which are offered in a wide variety of colours, sizes and flavours.

For Brussels-bound jetsetters who love the perks of a large resort with the intimacy of a B&B, look no further than Le 9HOTEL CENTRAL. This finely polished hotel's quiet and spacious setting is a perfect complement to the bustling city just steps away. We've found our home away from home in Brussels while in town for work or pleasure and its oh-so-sweet.
