

9HOTEL OPERA

PARIS

Located in the heart of an upbeat, trendy area in the 9th district of Paris, 9HOTEL OPERA offers an authentic Parisian experience amidst traditional bistros, art galleries, antique shops, markets, and more.

When 9HOTEL COLLECTION assigned architects Jordi Veciana and Jordi Castel, and the designer Skye Maunsell, to the project, they were given carte blanche : their only instructions were to use the finest materials and incorporate an elegant, contemporary yet timeless design.

The idea is to offer private and public spaces that guests can make their own, perfectly embodying the concepts of Lifestyle Hotel and Home Away from Home.

Jordi Veciana and Jordi Castel have superbly illustrate their work with several international projects for brands such as Inditex (Zara, Bershka, Lefties), Agata Ruiz de la Prada, Gianni Versace and Ralph Lauren in New York, Louis Vuitton in Japan, Pousada da Espera on the Costa dos Coqueiros in Brazil, Ralph Lauren and Hotel Regina in Barcelona, 9HOTEL CENTRAL in Brussels and 9HOTEL MONTPARNASSE in Paris, among others. Jordi Veciana defines himself as an industrial designer and Jordi Castel as an architect.

Skye Maunsell was specifically entrusted with designing the furniture and selecting the materials for 9HOTEL OPERA. She used a soft colour palette with contrasting elements for the hotel's interiors, expanded the existing space, and gave it a warm, comfortable atmosphere.

For this project, Castel Veciana studio endeavored to recreate the serene, tranquil and intimate atmosphere of a personal interior space within a Parisian Boutique Hotel.
